Configuring GraphRAG Indexing

The GraphRAG system is highly configurable. This page provides an overview of the configuration options available for the GraphRAG indexing engine.

Default Configuration Mode

The default configuration mode is the simplest way to get started with the GraphRAG system. It is designed to work out-of-the-box with minimal configuration. The main ways to set up GraphRAG in Default Configuration mode are via:

- [Init command](#) (recommended first step)
- [Edit settings.yaml for deeper control](#)
